Magic Redefined

Presents equally for thousands on a stage to intimate gatherings

Dynamic effects and original material you won't see elsewhere.

Demonstrating inconceivable mental marvels from both the stage and audience. The Sentimentalists bring your thoughts to life in a way that denotes real magic. Having this dynamic duo at your event ensures a highly entertaining show that will bring a spectrum of impossibilities, leaving you shaking your head in wonder.

Who are The Sentimentalists?

When these two joined together word spread quickly that the show was not to be missed.

The Sentimentalists are USA and Canada's premier mind reading duo having performed thousands of corporate and private events together.

Some of their most memorable moments include performing over 40 shows at The Magic Castle in Hollywood, performing at the CNE, soaring the skies during Nuit Blanche in a hot air balloon whilst reading minds in the sky for Hendricks Gin's award winning marketing campaign, performing on Magic Mondays in New York City, headlining Canada's magic bash, and making countless TV appearances nationwide (NBC, Space, Travel Channel).

Mysterion & Steffi Kay

This inseparable pair of best friends is both sophistication and fun.

With two decades of experience in magic Mysterion took on Steffi as his apprentice to teach the way of mentalism and in doing so rekindled his love for the art in such a way that they began working together exclusively. She is anything but the assistant!

A leading lady in the magic industry, she is a front runner as the new face of women in magic. Inspiring people everywhere to realize anything is possible.
